

Getting ready for school

Summer Week 4: 17th August 2020

In a few short weeks you will be starting school with us. Here are some challenges and activities we'd like you to have a go at so that you are ready and raring to go. Good luck and enjoy!

Maths:

When you start school you we will be doing lots of number and shape work.

1. Can you count to 10?
2. Count everything! How many legs on the chair? How many teddies in your bed? How many people live in your house? Can you show how many there are by holding up the right number of fingers?
3. Sing number rhymes such as '5 little speckled frogs' and '5 little men in a flying saucer'. Can you say how many frogs or men are left after each verse?
4. Have a look around the house for numbers. Where can you find the number 5? Number 10? Look for numbers when out and about. Which numbers can you see?
5. Look for different shapes. Can you find a square, triangle, rectangle or a circle?
6. Use construction blocks to build 2 or 3 towers. Which tower is the longest and the shortest? Can you use the bricks to make a long track and a short track?
7. Pour some water into a cup. Can you say when a cup is empty, full or half-full?
8. Find 2 bags or boxes. Can you fill one with heavy objects and put a light object in another. Which is the heaviest? Which is the lightest?
9. Talk about time. What do you do after you get up? What time do you have lunch? What do you do at bedtime?
