

Tips for shared reading

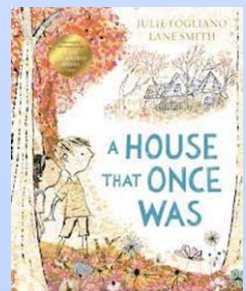

We know that not everyone feels confident reading to or with their children so here are some tips and videos to give you some ideas of how to do it. These videos produced by the Open University start with some simple tips on how to read in a way that involves children and encourages “book chat” and then model putting these into practice with a short text. Keep an eye out on TEAMS for more modelled readings and top tips videos from our staff throughout the year.

READING SHOULD NOT BE
PRESENTED TO CHILDREN AS A
CHORE, OR A DUTY.
IT SHOULD BE OFFERED
AS A GIFT.
